

TM1 Bridge-to-Cloud Planning Analytics

CONSIDERING MOVING TM1 TO THE CLOUD? START WITH A CLOUD TRANSFORMATION EVALUATION TO SEE IF IT'S RIGHT FOR YOU.

Evaluation Summary

More businesses are considering the Cloud to address IT efficiency and control costs. Understanding all the implications of migrating your TM1 application from on-premises to the Cloud can be daunting. We can guide you through these considerations and equip you with the knowledge needed to determine if there is enough value to consider it. Our free Bridge-to-Cloud evaluation will identify if you're eligible for IBM's license incentives, determine your migration path requirements, the feature benefits you can expect, and the costs and resource savings that can be achieved.

THE IBM INCENTIVES

Clients that are current on IBM's Subscription and Support are eligible for license incentives that make migrating TM1 to the Cloud compelling. The program offers:

- ✓ A simple single quote, order and invoice
- ✓ Dual Support & Services entitlement
- ✓ Elimination of dual payments for two environments
- ✓ Support entitlements from on-premise to SaaS offering
- ✓ Option to return within 12 months to S&S for your environment without a fee

IBM's incentives offer client's the ability to migrate TM1 to the Cloud, with the option to return to on-premises with no additional costs should conditions change. Clients don't lose any TM1 functionality. In fact, clients gain all the added benefits of IBM's TM1 SaaS application.

TM1 Cloud Migration Jump Start

Once you have a clear understanding of all the factors involved with migrating TM1 to the Cloud, and are ready to take the next step, our TM1 Cloud Migration Jump Start provides a fixed cost for your application migration. Deliverables include:
